

Testimonials

Over the past 3 years, we have been blessed to have our children attend St. Anne's Nursery School. From the 3's to the Pre-K program, we have been impressed by the structure and educational growth provided for our children. St. Anne's is a very nurturing school with wonderful educators. I have recommended the school to many friends, and all have been thoroughly pleased. It is a wonderful learning environment and we will be so sad when our last one leaves.

~Nicole and Shawn H.~

St. Anne's has been a loving and nurturing environment, in which both of my children have thrived, as they began their academic journeys. Both of my children that attended St. Anne's have been watched by grandparents during the day and needed a supplemental social setting to acquire Kindergarten-readiness skills. Some of the most important things I noticed as strengths are the instructors' strong ability to introduce academics aligned with the core curriculum, modeling effective techniques to develop healthy friendships, implementing decision-making skills, and strengthening fine motor skills. I, without a doubt, will be sending my 3rd child to St. Anne's in 2016 and I will forever be grateful for the foundation they have provided to my children.

~Lori K.~

We have never hesitated sending all 4 of our children to St. Anne's Nursery School where it has been a truly supportive learning environment & exceptional preschool.

Not only are the teachers compassionate about our child's first school experience, but they have developed a wonderful curriculum that fully prepared each child for Kindergarten.

Our children excel academically and socially and St. Anne's helped set the foundation for them to be respectable, well educated students.

I would recommend St. Anne's to anyone looking to send their child to preschool.

We couldn't be more pleased with St. Anne's Nursery School. 2 of my 3 children attended the school after our previous nursery school closed. We were hesitant with the new transition however the staff was warm and welcoming which made my children feel right at home. My daughter completed the 4's program and was well prepared for Kindergarten. She still talks about the fun activities she participated in at the school such as the pumpkin patch trip and Lehigh Valley Zoo trip. My son is currently in the 3's program and is learning so much. He adores his teachers and looks forward to school, especially Parkettes days. I can't say enough good things about St. Anne's Nursery School. At the time of transition, Mrs. Boyko went out of her way to ensure my daughter had a spot in the AM class even though it was full since the PM class conflicted with my work schedule. The entire staff is kind and patient with the children and flexible with their classroom schedules to allow speech therapy to occur for my children right at the school during classroom time. The curriculum ensures Kindergarten readiness.

I highly recommend sending your child to St. Anne's Nursery School.

I chose St. Anne's because it was close to my home and my mother in law heard good things about the program. My daughter started in the 3 year old program and I was very impressed with what she learned that year. After she finished the 4 year old program, we moved 30 minutes away. I searched for similar programs I could send her to in my area. I must have toured & spoken to 8-10 preschool centers and none of them measured up. I chose to take her back to St Anne's driving 30 minutes each way because I knew it would give her the best education. My daughter will enter kindergarten next fall with so many skills she learned from her teachers including the recognition of 27 sight words and a love for learning. As I searched for a program for my soon to be 3 year old, I again felt that the preschools I toured fell short. Most were focusing on "play" for the 3 year old program. There was no intention to teach any letters, numbers or morning introduction of weather and calendar. These were some of the things I loved that St Anne's started at an early age.

Overall, I have nothing but good things to say about the staff, curriculum and program in general. Highly recommended!!

My husband and I are extremely pleased with the preschool program provided by St. Anne's Nursery School. St. Anne's provides a welcoming, child-friendly, safe atmosphere with a low student – teacher ratio. Knowledgeable teachers deliver a standards-based, early childhood curriculum that allows children to construct knowledge through meaningful play, active exploration of the environment, and thoughtfully planned learning activities. Language and early literacy development are supported throughout all aspects of the St. Anne's preschool program. Furthermore, Mrs. Boyko, St. Anne's Nursery School Director, in partnership with the St. Anne's teaching staff, are committed to promoting the growth and development of each individual child while effectively preparing all children for success in kindergarten.

3 of our children previously attended St. Anne's and our 4th is currently attending.

St Anne's has been such a rewarding experience for my son and our family. He started in the three's program and finished with Pre-K. He has grown and learned so much since he started and I love how he comes home so excited to share with me what he has learned that day! Mrs. Boyko and her fellow teachers are fabulous and I'm so glad I made the decision to enroll him in their program. Thank you St. Anne's for giving my little guy the love of learning that he can take with him into his future school years!

Our experience with the two-year-old program has been a positive one. Miss Michelle and Miss Shannon are educated, patient, loving and caring teachers. They have made nursery school a positive experience for our daughter. She enjoys her time at school. Lots of art, play and learning activities fill her morning. We have re-enrolled our daughter for the next session! Thank you.
